

Built-in Table, Center Pocket, Storage Box

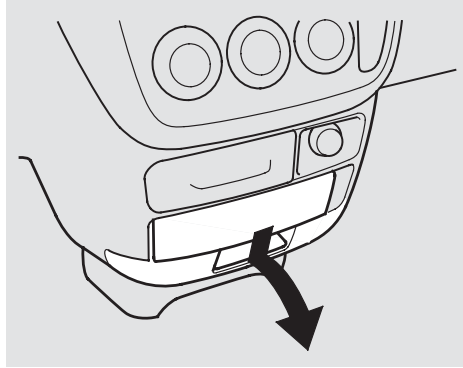

Put the projections on the table into the holes in the cargo area floor.

Using the Built-in Table

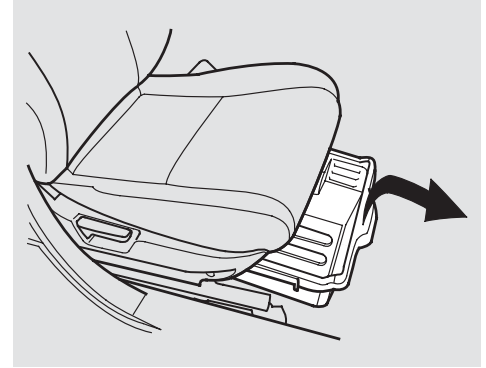

- Be sure to lock the legs of the table.
- Do not stand on the table.
- Do not put a weight of over 44 lbs (20 kg) on the table.
- Hot items such as pots, pans, or kettles should not be placed directly on the table.

Center Pocket

Automatic Transmission model only
Open the center pocket by pushing the handle down. Close it with a firm push.

Storage Box

A storage box is located under the front passenger's seat. To use it, pull upward slightly on the front center edge of the box to disengage the locking tabs then pull forward to slide the box out.
