

### Childproof Door Locks

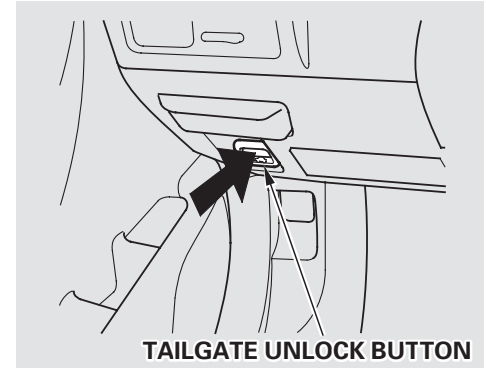

The childproof door locks are designed to prevent children seated in the rear from accidentally opening the rear doors. Each rear door has a lock lever near the edge. With the lever in the LOCK position, the door cannot be opened from the inside regardless of the position of the lock tab. To open the door, pull the lock tab up and use the outside door handle.

### Tailgate

1. You can open the tailgate in two ways:
  - Use the ignition key to open the tailgate lock.

- Push the tailgate unlock button on the dashboard under the left air vent.
